EXPERTISE

## OUR DEEP KNOWLEDGE AND EXPERTIZE **AT YOUR SERVICE**

Over the last twenty years we at Eden Springs have mastered at improving health and well-being of hundreds of thousands European companies by providing the best drinking water solutions adapted to each customer's needs.

EUROPE'S NUMBER 1 WATER COOLER SUPPLIER

MORE THAN 368 MILLION LITERS OF WATER DISTRIBUTED PER YEAR

MORE THAN 600,000 CUSTOMERS IN 16 COUNTRIES

## CARE ABOUT YOUR EMPLOYEES **WELL-BEING AT WORK!**

Companies that offer their employees means to maintain a healthy lifestyle in the workplace have found that well-being is good not just for the individual, but also for the business.

Drinking water is one of the simplest and most effective ways to ensure that your body is operating optimally.

EMPLOYEES WHO TAKE CARE OF THEIR WELL-BEING ARE GENERALLY

 HEALTHIER  MORE PRODUCTIVE  LESS PRONE TO INJURY  AND WE BELIEVE A LITTLE BIT MORE HAPPY

## THE HIGH QUALITY YOU EXPECT **AND DESERVE**

At Eden Springs (Switzerland) AG the quality of our water is our highest concern, whether it comes from one of our carefully selected sources or if it comes from your main. We elaborate strict tests in our laboratories following the Quantis quality standards when it comes to our bottled water. We partner with 3M for state-of-the-art filters converting the mains water to fresh and healthy water.

DISCOVER OUR UNIQUE SERVICE LEVEL AGREEMENT COVERING 4 TOPICS:

 COOLER INSTALLATION  COOLER SANITIZATION  WATER QUALITY  BOTTLE DELIVERY

## YOU DRINK WE CARE

Our planet is our future. Eden takes on a strong commitment with our environment; carbon footprint assessments, carbon reduction plans and offset projects are part of our daily business.

By providing water from a spring close to you and by optimizing our routing systems we are minimizing the environmental impact.

Several Eden production sites use renewable energies, such as wind or solar power.

By selecting all new coolers based on Energy Star recommendations we ensure a 50% less energy consumption of our coolers.

In partnership with The Carbon Neutral Company, a world leading provider of carbon reduction solutions, we compensate 100% for our company's total CO2 footprint (including our cooler's electricity consumption at our customer's premises) as from July 2010. The carbon compensation is accomplished through purchasing "carbon offsets" from verified hydro power projects in Asia to reduce an equivalent of CO2 from other energy uses. We are proud to be the first carbon neutral water company in Switzerland!
